

RESIDENCY PROGRAM

- The UCSF OEM Residency Program was founded in 1979 and is fully accredited by the Accreditation Council for Graduate Medical Education (ACGME).
- The residency provides academic instruction, clinical and non-clinical experiences, and research opportunities.
- Our graduates are currently leaders in academia, government and non-governmental organizations, clinical practice, and corporate settings.
- The program is housed within the Center for Occupational and Environmental Health (COEH), a multidisciplinary research and education partnership between UCSF, UC Berkeley, and UC Davis.

- Residents work with research faculty on projects ranging from respiratory health to ergonomics, climate change, and other topics.
- Clinical rotation sites include UCSF clinical sites, Kaiser, Agile, Concentra, and others.
- Public health rotation sites include the California Department of Public Health, the Bay Area Air District, the California Environmental Protection Agency, and Cal/OSHA.
- Administrative training sites include Zenith Insurance, Kaiser Administration, and rotations with corporate consultant preceptors.

UCSF Department
of Medicine

Division of Occupational, Environmental,
and Climate Medicine

CLINICS

Our division spans three core sites:

- UCSF Health (Parnassus/Mt. Zion) - Employee health and faculty referral practice in occupational and environmental medicine
- Zuckerberg San Francisco General Hospital (ZSFG) - Preplacement exams, surveillance, and other services for 24 San Francisco City and County departments
- San Francisco Veterans Administration Hospital (SFVA) - Employee health, Veteran's environmental health evaluations, Compensation and Pension
- We also have a partnership with occupational health clinics at the Oracle Park, San Francisco International Airport and St. Francis Hospital

ABOUT OUR DIVISION

- Our Division is based in the Department of Medicine at UCSF and is an internationally recognized center for research, training, and clinical care.
- Our mission is to advance the field of occupational, environmental, and climate medicine through innovative research, transformative education, and dedicated service
- We have about 16 core faculty, 3 division staff, and over a dozen additional site preceptors and volunteer clinical faculty.
